

## BYMACHEM® ALU®

High-quality, long-lasting, corrosion-resistant  
 extruded aluminium profiles for  
 construction and service industries

### Advantages

- High strength
- Long service life
- Excellent corrosion resistance
- High dimensional stability

### Applications

- Industrial buildings
- Warehouse construction
- Agricultural buildings
- Transportable buildings

### Technical data

- Extruded aluminium profiles
- Anodized aluminium profiles
- Powder coated aluminium profiles
- Customized aluminium profiles
